

## NEBRASKA ADMINISTRATIVE CODE

### Title 157 - STATE FIRE MARSHAL

#### Chapter 8 - FIREWORKS ACCEPTABLE IN THE STATE OF NEBRASKA FOR THE YEAR 2002

001. Please be advised that the following fireworks have been approved for sale and discharge by the Nebraska State Fire Marshal.

Fireworks not listed or described in this Chapter are NOT PERMISSIBLE. Individuals found in possession or attempting to buy, sell, transport or manufacture illegal fireworks will be prosecuted to the fullest extent of the law.

All Distributors, Jobbers or Retailers MUST complete a Fireworks License Application prior to the purchase, delivery and sale of permissible fireworks. Retail applications postmarked or submitted after June 10<sup>th</sup> of any year must include a fifty-dollar (\$50.00) late fee. Please check with your city or village officials because their license and fireworks requirements may vary from the State Fire Marshal's rules and regulations. Fireworks may only be purchased from licensed distributors.

Any fireworks that are shot into the air must be destroyed in the air and not come to the ground hot or with flames. Items that have inserts are acceptable only if the inserts come to the ground cool and appear on this approved list.

#### 002. Display Shell Items.

All reloadable fireworks larger than one and three-quarters inch (1-3/4") in diameter are not permissible or legal. Reloadable fireworks may contain a maximum of six (6) single break shells or inserts per package.
